ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

TODAY & TOMORROW

JANUARY 3-13, 1984

The UCSF Library will charge a fee of $5 per item for all materials supplied by the National Library of Medicine, starting January 3.

The National Library of Medicine, UCSF's "last resort" source for library loans, joined the list of libraries charging for document deliveries on October 1. The Library has been absorbing these costs, but it is no longer able to do so.

Loan payment must be made by personal check; no cash payments can be accepted.

The UCSF Library will continue to provide, free of charge to UCSF personnel, materials which can be obtained from within the UC library system, and every effort will be made to obtain the needed materials at the lowest available cost, according to Kenneth Weeks, head of UCSF Library's Access Services.

A limited number of private, enclosed garages in campus-owned buildings are now available for parking. Each garage, which is equipped with an automatic door control, rents for $65 per month, which also includes parking in the Millberry Union garage from 2:30 p.m. to 8 a.m. weekdays and all day weekends and University holidays. Assignments are on a first-come first-served basis. For further information contact the Parking Office at x2566.

MOVES

Inpatient Pharmacy has moved from C 22 to M 39. The telephone extension of 1028 remains the same.

The "Love Canal" controversy will be discussed by Adeline Gordon Levine, PhD, in a slide-lecture presentation on Thursday, January 5, 4 to 5:30 p.m. in N 729.

Levine, professor of sociology at SUNY-Buffalo, has received wide acclaim for her book, *Love Canal: Science, Politics and People.* Levine's lecture will address the part women in science, government and the community played in the Love Canal controversy.

This lecture-slide presentation is the first of three lectures in a winter series sponsored by the Women, Health and Healing Project, Department of Social and Behavioral Sciences, School of Nursing. For further information contact Elaine Benson at x3047.

The University of California, San Francisco, in compliance with Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975, does not discriminate on the basis of race, color, national origin, sex, handicap, or age in any of its policies, procedures, or practices; nor does the University discriminate on the basis of sexual orientation. This nondiscrimination policy covers admission and access to, and treatment and employment in, University programs and activities, including but not limited to, academic admissions, financial aid, educational services, and student employment.
Inquiries regarding the University of California, San Francisco's equal opportunity policies may be directed to: Affirmative Action Coordinator, University of California, San Francisco, (415) 666-4752.

DEADLINE

Deadline for the next issue of *Today & Tomorrow,* covering the time period Jan. 14-27, will be **Tuesday, Jan. 3, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

In an effort to help eliminate stress for members of the campus community, the School of Dentistry has established a new "wellness program," featuring a monthly series of free health lectures from January to May.

Faculty for this series include: Samuel J. Wycoff, DMD, MPH; Lewis E. Graham II, PhD; Cary E. Howard, PhD; and Jared I. Fine, DMD, MPH. The lectures will be held from 5-7 p.m. in Toland Hall (unless otherwise noted):

- Thurs., Jan. 12: "Health Awareness for Health Professionals: Life Styles and Wellness," To be presented by Graham and Howard. Held in Room S 214.
- Thurs., Feb. 9: "Health Awareness for Health Professionals: Life Transitions: Understanding Death and Dying."
- Thurs., Mar. 1 and Tues., Mar. 6: "Memory, Recall and Accelerated Learning Techniques."
- Thurs., Apr. 5: "Reducing Stress Through Meditation and Cognitive Imagery."
- Thurs., May 3: "Nutrition and Physical Activity." Held in Room S 214.

It is hoped that the new program will increase student retention in academic programs, enhance future student success in the professional world, and develop among students, faculty and staff a supportive climate which nurtures positive health, enhanced learning, personal growth and professional excellence, said Dean John C. Greene.

The wellness program is coordinated by the Division of Behavioral Sciences and Wellness, Department of Dental Public Health and Hygiene, and is made possible through a grant from Benjamin Ichinose, DDS, and his family, in appreciation for the education he received at UC-Berkeley and UCSF.

David Werdegar, MD, MPH, has been appointed associate dean for the School of Medicine at San Francisco General Hospital, replacing H. Barrie Fairley, MB, BS, who resigned December 31 to devote more time to academic anesthesia. Fairley was associate dean since 1979.

Professor and chair of the Division of Family and Community Medicine since 1981, Werdegar also serves as chief of family practice at SFGH, the only UCSF chair to head a clinical service at SFGH. He previously served as associate dean for the UCSF-Fresno Medical Education Program from 1976 to 1981.

A member of the UCSF faculty for 20 years, Werdegar developed the home care service at Moffitt Hospital, one of the few university hospital-based programs of its kind, providing students with an opportunity to see patients in the context of home environment and family.

Werdegar received his BS and MS degrees in philosophy from Cornell and his MD from New York Medical College. He completed his postgraduate training in medicine at Moffitt Hospital and at Cornell. Werdegar also holds a MPH from UC-Berkeley.

David F. Altman, MD, has been appointed associate dean for the School of Medicine Student Affairs, replacing H. Harrison Sadler, MD, who has been associate dean for the last 10 years.

A member of UCSF for some 12 years, Altman did his medicine residency at SFGH in 1971 and his internal medicine residency at UCSF in 1972. In 1978 he became assistant professor of medicine and associate director of the Gastroenterology Clinic. He became director in 1982.

Altman received his BS in computer science from the Carnegie Institute of Technology, Pittsburgh, PA, and his MD from the University of Pittsburgh. A member of the American College of Physicians and the California Academy of Medicine, Altman is the recipient of the 1983 teaching award from the UCSF School of Medicine senior class.

NEWS BRIEFS

How to control migraine headaches by using biofeedback is the subject of one of the free Community Health Education lectures to be held this winter. Sponsored by the Office of Public Service Programs and the Committee for Arts and Lectures, the talks will be held on Wednesdays at 7:30 p.m. in Toland Hall.

• Jan. 11: "Biofeedback: Research and Applications." Joe Kamiya, PhD, professor of psychiatry, will explain how biofeedback is used in learning to achieve partial voluntary control of physiological functions including hypertension, migraine and tension headaches, and insomnia.

• Feb. 22: "Exploding Myths About Dental Health." Norma K. Francisco, RDH, MPH, associate clinical professor and chair, Division of Dental Hygiene, and Brian J. Swann, DDS, lecturer, Division of Fixed Prosthodontics, Department of Restorative Dentistry, will present practical information on good dental health, from misconceptions about the causes of dental problems to how to choose a good dentist.

Free parking for the lecture series is available in the Millberry Union garage. For further information call x3206 or x2019.

Nominations for the 27th Faculty Research Lecturer are due from members of the Academic Senate by Friday, January 6.

The Faculty Research Lecturer selection represents the foremost recognition for scientific achievement awarded to a UCSF faculty member by his or her peers.

Nominations should be sent to the Committee on Research, Academic Senate Office, S 101, and should include: a one-page summary of the most outstanding achievements of the candidate's scientific career, a curriculum vitae and up to four reprints representative of the candidate's publications.

Final selection of this year's lecturer will be made by members of the Committee on Research and announced at the next Academic Senate meeting on Wednesday, February 22, at noon in HSW 300.

The UC Regents have selected Mary S. Calderone, MD, MPH, as the Jake Gimbel Lecturer. Calderone will present three lectures on the overall topic of "The Nature of the Sexuality of Infants and Children—A Pressing Socio-Medical Issue," on Thursday and Friday, January 19 and 20.

Calderone's two public lectures on Thursday in the Langley Porter Auditorium are "Parents and Children as Sexual People," from 10 to 11 a.m., and "The Physician's Role in the Sexual Evolution of Infants and Children," from 4 to 5:30 p.m. Her third talk, "Psychosocial Factors in Sexual Development," will be presented to second-year medical students on Friday, from 3 to 5 p.m. in HSW 301. Calderone also will be meeting informally with several members of the campus community.

Calderone is widely recognized as a pioneering leader in the field of human sexuality. She is a former president of the Sex Information and Education Council of the US (SIECUS), which she co-founded in 1964, and is presently adjunct professor, Program in Human Sexuality, New York University's Department of Health Education.

Author of a number of publications, Calderone has received 11 honorary doctorates and many major awards, including the Edward W. Browning Award from the American Public Health Association and the Margaret Sanger Award from the Planned Parenthood Federation of America, of which she was medical director from 1953 to 1964.

For further information on the series contact Evalyn S. Gendel, MD, director, sex counseling and education, Department of Psychiatry, at x4787.

WE GOOFED

In the last issue of *Today & Tomorrow* Hugh Brereton was listed incorrectly under "In Memoriam," instead of in "Honors & Awards." Brereton was elected to the board of trustees, Napa College, and is very much alive.

Eight of the most renowned authorities in American psychiatry will be part of the Grete Simpson Fund Visiting Lecture Series from January through May. Each lecture will be a Department of Psychiatry Grand Rounds held on Wednesdays, 11 a.m. to 12:30 p.m., in HSW 301:

• Jan. 4: Fritz Redlich, MD, professor emeritus of psychiatry, UCLA Neuropsychiatric Institute, to present "Adolph Hitler's Illness." In addition, Redlich will lead a discussion from 2 to 3:30 p.m. in the LPPI Auditorium on mental health policy and ethics issues.

• Jan. 18: Carol Nadelson, MD, vice chair and professor of psychiatry, Tufts University School of Medicine, to speak on "Gender and Psychotherapy."

• Jan. 25: Floyd Bloom, MD, director, Division of Preclinical Neurosciences and Endocrinology, Scripps Clinic and Research Foundation, La Jolla, to present "The Function of Neuropeptides and Possible Clinical Implications." Bloom also will lead an open discussion from 2 to 3:30 p.m. in the LPPI Auditorium.

• Feb. 15: Elissa Benedek, MD, director of the Center for Forensic Psychiatry and clinical professor of psychiatry, University of Michigan Medical Center, Ann Arbor, to speak on "Domestic Violence."

• Mar. 14: Paul Ornstein, MD, professor and codirector of the International Study Center for Psychoanalytic Self Psychology, Department of Psychiatry, University of Cincinnati, to present "The Empathic Vantage Point: Its Clinical and Theoretical Consequences."

• Apr. 4: Richard L. Cohen, MD, professor of child psychiatry and chief of the Division of Child and Adolescent Psychiatry, University of Pittsburgh, to speak on "Experiences in Psychiatric Consultation and Liaison to Childbirth Programs."

• Apr. 18: Donald F. Klein, MD, professor of psychiatry, Columbia University; director of research of New York State Psychiatric Institute, to present "Anxiety Reconceptualized."

• May 2: Otto Kernberg, MD, professor of psychiatry, Cornell University Medical College and medical director of New York Hospital, Cornell Medical Center, Westchester Division, to speak on "Narcissistic Pathology: Typical and Atypical Cases."

The Grete Simpson Fund was established in 1981 through a bequest of internationally recognized economist John Simpson, to honor the memory of his late wife, a child psychologist. The fund's purposes are to attract outstanding visiting scholars to enhance teaching and investigative activities, and to facilitate the research development of junior faculty members.

The series is free and open to the public. For further information contact Jeffrey Cohen, MD, at x77-305.
